## Who We Are

Gus Moon members Anthony Mullis and Dennis Furr started playing music together in 2007 at a small town coffee shop in Indiana. Two full length albums and two EPs later these Americana troubadours have decided to take their music on the road and bleed melodies for a living.

## In The Press

"When pick hits string and he pulls that first lyric up from his gut, he transforms. A Gus Moon show is as much a séance as it is a musical experience... It's powerful. His mouth is a channel where several voices erupt, recalling the brokenness of their bad loves and the triumphs of their picking up the shards."

- Rick Barcus, National Road Magazine

"Mullis' voice, both as a writer and a singer, has a smile and a tear in it at the same time. It's a page out of the book of some of the best folk troubadours: make 'em cry and make 'em smile."

- Jared Jernagan, The Banner Graphic

"He has better songwriting chops than most. If he gets out of town and tours, I think he could really blow up, he certainly has the talent."

- Wayne Bertsch, Nuvo Magazine
